

2021 TREATMENT CHART

Nail Treatments

19606NT Super Base

A base coat that serves as a ridgefiller, strengthener, and nail primer for both natural and artificial nails. It has a matte finish providing the perfect surface for nail enamel adhesion. Super Base increases the life of the manicure while preventing chipping and tip wear. Super Base contains silk fibers which makes this product not vegan-friendly.

19607NT19 New Formula Super Dry

A fast drying top coat that dries up to four coats of nail enamel to a high gloss shine in less than three minutes. Also contains Etocrylene - a UV inhibitor that prevents nail discoloration. Works as a protective sealer. 10-Free.

19610NT Lavender Nail Bed Healer

This product contains lavender extract, ginseng root extract and calcium fluoride to help soothe nails damaged by gel polish and acrylic nails. It helps to strengthen the nails and prevents them from peeling, splitting and chipping. This moisturizing product creates a protective barrier to aid in keeping harmful elements out.

19613NT Almond Cuticle Oil

This cuticle oil contains a blend of natural oils including Sweet Almond Oil and Argan that work together with Vitamins A and E to soften and moisturize the cuticles. Helps restore the natural moisture of the nail.

19615NT Nail Strengthener

A strength and growth treatment. This product contains calcium pantothenate and Vitamin A. Helps to keep natural nails from breaking and splitting. Ideal for weak, damaged nails.

19616NT Clear Matte Top Coat

Fast drying and chip resistant. Instantly transform shiny nails into a velvety, matte finish with this Matte Top Coat. The specially designed formula applies evenly and preserves the look of any shade of nail color.

19619NT Base Coat With Garlic

This base coat contains Garlic Extract which helps strengthen the nails, allowing them to grow long and strong. Provides a hard and chip resistant protective coating, extending the life of your manicure.

19626NT Gel Finish Top Coat

This 10-Free, gel like top coat creates a beautiful gel like finish and allows the polish to last up to two weeks with no chipping or tip wear.

*We recommend using quick dry drops separate from quick dry top coat. Using the two together can cause your polish to wrinkle.

19627NT
Hydrating Base Coat

Water from Prickly Pear replenishes, revitalizes, and supports hydration while Hydro-Functional Actives from Coconut and Castor Bean form a protective blanket on the nail. Our formula also includes Capryloyl Glycerin/Sebacic Acid Copolymer which creates a flexible natural barrier film that gives superior moisturization.

19628NT
Deep Nutrition For Nails

This treatment is the deepest nutrition, most quenching program for nails. In 3 weeks, nails are back to their healthiest virgin quality: strong, silky smooth and protected. It contains an extra smoothing complex to seal down Keratin cells.

19629NT
10 Free Quick Dry

This clear top coat goes on smooth and stays put. Our new 10 Free Quick Dry is long lasting and void of many chemicals that one would find in traditional nail polish.

19630NT
Avocado Beauty Oil

This Avocado Beauty Oil works great on cuticles or all over the body as a moisturizer. The main ingredient is avocado oil which is mixed with cottonseed oil and lavender fragrance.

19632NT
7 in 1 Elixir

Extraordinary compound of oils, vitamins and minerals all working together to make nails strong and hard, smooth and shiny, healthy and hydrated.

19633NT
Ridge Vanisher

Multi-functional base coat repairs and protects nails, and smoothes ridges while increasing color adhesion. Includes Vitamins C and E.

19634NT
Scratch Repair

Freshens manicures and pedicures, instantly erasing all micro scratches, dents, and surface marks all while prolonging the life of the polish. Fast drying formula.

19635NT
Triple 5

This formula contains 5 vitamins, 5 botanicals and a strengthening ingredients. Nourishing, hydrating, revitalizing base coat that hardens nails and stimulates growth. Vitamins - A, B5, C, E and F.

*We recommend using quick dry drops separate from quick dry top coat. Using the two together can cause your polish to wrinkle.

99612NT
2-in-1 Base Coat

A combination of nail prep and primer that hydrates and seals the nail bed creating a long lasting shine and protection which works to prevent chipping and tip wear. It also contains a UV absorber to prevent discoloration. Protects the nail plate and aids in polish adhesion.

19636NT
Soy Cuticle Oil Version 1.2

This cuticle oil contains a blend of natural oils that work together with Vitamins A, D and E to soften and moisturize the cuticles. This formulation has anti-inflammatory properties and antioxidants that support cell growth, cuticle and nail health, restoring the natural moisture of the nail.

19637NT
Soy Cuticle Oil Version 2.7

This cuticle oil contains a blend of natural Soybean Oil and Jojoba Esters which helps in providing extra moisturizer to cuticles and nails. This special blend contains Vitamins A, C and E which helps soften and moisturize the cuticles. The Soybean oil gives it a more oily feel that helps in cell growth.

19638NT
Quick Dry Drops

This formulation is created using Avocado and Coconut Oil, which not only helps dry the nail polish faster but also soothes and hydrates the nail.

19639NT
Empower Strengthenener

This nail strengthener creates an almost invisible, strong, protective shield over the nail. Vitamins B5 and C nourish, hydrate, and protect the nails. Biotin helps stimulate the formation of the nails' keratin.

19640NT
Empower Strengthenener for Men

This protective nail strengthener contains a special formulation to nourish rough and tough nails. Vitamins B5 and C nourish, hydrate, and protect the nails. Biotin helps stimulate the formation of the nails' keratin.

19641NT
Breathable Nail Hardener (Halal)

Hardens nails by restoring and repairing soft breaking nails. This product can be used on its own as a nail hardening treatment, or with colored nail polish as a base coat or top coat. This product uses advanced oxygen technology meaning that it is water and air permeable, allowing the nail to breathe.

19643NT
Breathable Nail Nutrition (Halal)

This treatment provides the deepest nutrition and is the most quenching program for nails. It contains an extra smoothing complex to seal down Keratin cells. It also contains amino acids to help stimulate the formation of Keratin. Allow 3 weeks for nails to return to their virgin state. This product uses advanced oxygen technology meaning that it is water and air permeable, allowing the nail to breathe.

*We recommend using quick dry drops separate from quick dry top coat. Using the two together can cause your polish to wrinkle.

HTC

Halal Top Coat

This breathable top coat contains a non-occlusive film that is both permeable to air and water vapor. This can be used both as a top coat for a longer lasting manicure and a base coat for nail plate protection.

#19644NT

Plumping Sticky Base Coat

Formulated for maximum color adhesion while shielding the nail bed from injury, hence the plumping aspect of the product. An added bonus is that the product also protects the nails from staining. This formula protects the nail bed and is intended to increase the length of manicures.

*We recommend using quick dry drops separate from quick dry top coat. Using the two together can cause your polish to wrinkle.
